○ boshraemad

Summary

Frontend Developer skilled in building responsive, user-friendly web applications using modern technologies like React.js, and Tailwind CSS. Experienced in integrating APIs, managing state efficiently, and optimizing performance for seamless user experiences. Passionate about clean, maintainable code and creating visually appealing, accessible interfaces."

Skills

Technical skills
HTML5 , CSS3 , JavaScript (ES6+) , Responsive Design , React.js , Tailwind CSS , Bootstrap , Redux toolkit

Non Technical Skills
Team Work , Organized , Time Management and Writitng Reports

Projects

20/2/2025

LMS ⧉
React.js | Tailwind | Redux toolkit
Developed a real-time Learning Management System using React, Tailwind CSS, Redux, React Query, and Socket.io ⧉ , featuring authentication, dynamic course pages, user profiles, notifications, and course reviews for an enhanced learning experience

30/7/2025 – 1/8/2025

A-Portfolio ⧉
React.js | Tailwind | Supabase
Developed a modern, responsive portfolio website using React and Tailwind CSS, integrated with Supabase for backend data management. Implemented dynamic project showcases, optimized image rendering, and designed a clean, user-friendly interface to enhance the presentation of work and improve user experience

1/8/2025 – 3/8/2025

react-past-pizza ⧉
React.js | Tailwind CSS | Redux toolkit
Pizza Delivery Web App – Built a feature-rich pizza delivery platform using **React**, **Tailwind CSS**, **Redux Toolkit**, and **React Router v6**, integrating **geolocation** to automatically detect user locations for faster order processing. Implemented dynamic routing for menu, cart, and checkout pages, a global state management system for orders and user data, and a fully responsive, modern UI for an optimized user experience.

WorldWise ⧉
React.js | ContextApi
Built a travel tracking application using React and React Leaflet, enabling users to log and manage visited cities on an interactive map, enhancing user engagement through a visually dynamic and intuitive interface.

usePopcorn ⧉
React.js
Developed a movies web application using React that fetches data from a third-party API, featuring a personalized watchlist, detailed movie information pages, user reviews, and search functionality for an enhanced viewing experience

Education

2021 – 2026	**Faculty of Engineering Computer and Control Systems Department**
Mansoura	*Mansoura University*
